

SCRUBBER-DRYERS LINE

E65
E75
E83

COMPACT-INTUITIVE-RELIABLE

E65, E75 & E83 ARE THREE NEW, USER-FRIENDLY RIDE-ON SCRUBBER-DRYERS DESIGNED BY EUREKA FOR THE MAINTENANCE CLEANING OF AREAS UP TO 8000 SQ/M, WHICH ALLOW A DRAMATIC REDUCTION IN THE COST OF CLEANING.

Available with 2 PPL disks or pads of 65cm, 75cm, and 83cm which, combined to a speed of 6 km/h, boast an area coverage of up to 4.980 sq/m/h.

Our major aim was to design a compact range of machines, fast and productive, that can be purchased at a very competitive price. E65/75/83 are therefore a modern alternative to bulky walk-behind or outdated/out-sized ride-on scrubber-dryers.

The range offers the economic advantage to be used up to four non-stop working hours thanks to the optimization of energy consumption. The compact size allows the machines to pass even through traditional doors or be transported in lifts.

E65/75/83 guarantee a dramatic reduction in the cost of cleaning, thanks to an extremely competitive purchase price and a complete set of standard equipment which reduces waste and consumption. No more time and costs wasted on operator training, thanks to the very simple and user-friendly controls.

VALUE ADDED FEATURES

- 10% - 20% GRADEABILITY
- NON-MARKING TYRES, IN PPL
- ON-BOARD BATTERY CHARGER
- LOW BATTERY CHARGE STOP VALVE
- ADJUSTABLE WATER SUPPLY, FROM 0 TO 3,5 LITRES/MIN
- WATER LEVEL SENSOR
- ERGONOMICAL INLET POINT FOR CLEAN WATER TANK
- VACUUM HOSE CAN BE WASHED TO AVOID CLOGGING
- RAPID REPLACEMENT TANK SEALS/GASKETS
- ANTI-TILTING BARS
- ADJUSTABLE SEAT
- REVERSE SPEED BEEPER
- LOW NOISE LEVEL: 63DB
- LOW BARICENTRE FOR BETTER STABILITY
- VERY COMPETITIVE PRICE!

THE RECOVERY TANK is equipped as standard with a stainless steel basket to avoid the passage of larger debris which may clog the system.

THE VACUUM-MOTOR is silenced, and guarantees a very low acoustic pressure level which is particularly appreciated in noise-sensitive environments such as nursing homes and hospitals.

THE EASY AND INTUITIVE CONTROLS ensure user-friendliness, without additional costs for operator training.

THE DRIVE MOTOR is completely sealed and protected by a strong, tubular bumper. Additionally, the machine is equipped with an anti-tilting device for increased safety.

THE TANKS boast a capacity of 110/125 litres, and thus guarantee a very high productivity and reduce time wasted for emptying/refilling operations.

THANKS TO THE OPTIMIZATION OF ENERGY CONSUMPTION, these machines can be used for up to four non-stop working hours

AUTOMATIC SQUEEGEE UNCOUPLING when accidentally impacted avoids damage to the machine or to the environment.

THE SCRUB DECK is equipped with a self-adjusting splash-skirt which, besides preventing the dirt water to splash during the cleaning session, allows for water-leaking prevention.

VALUE ADDED OPTIONS

- Brushes & Pads
- Batteries
- Battery charger
- Flashing light
- Hour meter

FIELDS OF APPLICATION

Industrial sites, communities and vicinities, schools, offices, religious buildings, hospitals, public buildings, airports, ports, shopping malls, logistical depots, cleaning companies, and multi services.

SUITABLE CLEANING SURFACES

Ceramics, marble, cement/concrete, linoleum, non-slip surfaces, porcelain tiling, and many other dirty conditions.

TECHNICAL SPECIFICATIONS	E65	E75	E83
Cleaning path (mm)	650	760	830
Cleaning capacity (sq/m/h)	3.900	4.560	4.980
Fresh water tank capacity (litres)	110	110	110
Recovery tank capacity (litres)	125	125	125
Drive	electronic assisted	electronic assisted	electronic assisted
Forward speed (km/h)	6	6	6
Power	24V	24V	24V
Standard battery	4 x 6V	4 x 6V	4 x 6V
Battery charger	on-board	on-board	on-board
Weight (incl. of battery & charger)	343 Kg	350 Kg	357 Kg
Size (without squeegee) (mm)	1.425 x 690 x 1.243	1.425 x 790 x 1.243	1.425 x 840 x 1.243
Squeegee width (mm)	920	980	1.040

The NEW ECO LINE of scrubber-dryers by Eureka

Is made up of 13 models, available in 27 different versions, and is ideal for the thorough cleaning and maintenance of small, medium and large size areas.

The scrubbers are available either push-type or ride-on, and upon request can be equipped with the new, exclusive ECO system (patented), which breaks water economy and detergent saving barriers, and has won several awards (among them, the Veneto Sviluppo award issued by the University of Padua).

The system has been designed to guarantee impressive labour/water/detergent savings, and boasts a productivity rate 3 times greater than traditional systems.
